Subjects:

List of subjects:

Physics:

Physics is the branch of science that deals with the structure of matter and how the fundamental constituents of the universe interact.

Math:

Mathematics is a subject that deals with numbers, shapes, logic, quantity and arrangements. Mathematics teaches to solve problems based on numerical calculations and find the solutions.

Chemistry:

Chemistry is the study of matter, analysing its structure, properties and behaviour to see what happens when they change in chemical reactions.

Biology:

Biology is a branch of science that deals with living organisms and their vital processes. Biology encompasses diverse fields, including botany, conservation, ecology, evolution, genetics, etc.

Urdu:

Urdu is an Indo-Aryan language spoken chiefly in South Asia. It is the national language and lingua franca of Pakistan, where it is also an official language alongside English.

Islamic Studies:

Many academic Islamic Studies programs include the historical study of Islam, Islamic civilization, history of the Muslim world, historiography, Islamic law, Islamic theology and Islamic philosophy.

English:

English is the third-most widely spoken language in the world as of 2023 and the primary language of much of the developed world, including the United States, the United Kingdom, and other nations.
